Subject: RE: Illinois State Route 113 Release - Non-Petroleum Detection Letters

All,

I am confused by the letter regarding 1475 Hawkins Trail. It discusses a detection of 1,2-Dichloroethane, but I have never been provided any data that showed such a detection. Could you let me know when that compound was detected and provided me those results.

Thanks

All,

Please see the attached letters that were sent to these property owners today.

We'll also be sending you copies of the non-detection letters that have been sent to date.

If you wish to be removed from the cc list to receive this information in the future, just let me know.

Thanks.

Kendall
